SUMMARY

Third-year BSIT student at Western Institute of Technology with hands-on experience building websites and systems in HTML, CSS, JavaScript, PHP, MySQL, React and Java. Has worked as a front-end developer on team projects and built full CRUD web apps with login and database design. TESDA NC II holder in Computer Systems Servicing.

TECHNICAL SKILLS

- **Languages:** JavaScript, PHP, Java, Python, HTML, CSS
- **Frontend:** React.js, responsive layouts, interactive UI with vanilla JavaScript
- **Backend & Databases:** Node.js, PHP (PDO), MySQL, MongoDB, REST APIs
- **Tools:** Git, GitHub, VS Code, Figma, GitHub Pages, Render
- **IT Support:** Computer hardware assembly, OS and software installation, basic network setup, troubleshooting
- **Multimedia:** Video editing, voice-over for project demos

PROJECTS

DataDynasty — Esports Tournament Manager · Web Developer · Oct 2025 · **Code**
PHP, MySQL, PDO, HTML, CSS
- Built a web app for running esports tournaments: create teams and players, schedule matches, record winners, and edit tournament details.
- Designed a 6-table MySQL database and used prepared statements for queries; the standings page ranks teams by wins and win rate.

Awesome Todos — Task Manager App · Web Developer · **Live**
React, Node.js, MongoDB, REST API
- Built a to-do app with a React front end that creates and manages tasks through a REST API, deployed on Render.

Urban Tastebuds — Restaurant Online Ordering Site · Front-End Developer, team of 9 · Apr 2025 · **Live** · **Code**
HTML, CSS, JavaScript
- Built front-end features for a restaurant-style online shop: menu search and filters, shopping cart, table reservations, and login and registration.
- Worked with a project manager, UI designer and backend developers on a 9-person team; site deployed on GitHub Pages.

Course Registration System · Team Member · Apr 2025 · **Code**
Java, Java Swing
- Team desktop app where students log in, register, and enroll in courses; edited the demo video and recorded its voice-over.

Tech Haven — Gadget Store Website · Web Developer · Mar 2025 · **Live** · **Code**
HTML, CSS
- Built a multi-page store website with a product catalog and prices, customer reviews, FAQs and contact details.

WORK EXPERIENCE

Student Web & App Developer · Western Institute of Technology, Iloilo City (academic and personal projects) · 2024 – Present
- Built websites, web apps and mobile apps for BSIT coursework, from UI design to coding, testing and deployment.
- Worked as front-end developer on team projects of up to 9 members, coordinating with project managers, UI designers and backend developers through GitHub.
- Developed database-driven systems with PHP and MySQL, and full-stack apps with React and Node.js; deployed live projects on GitHub Pages and Render.

EDUCATION

BS Information Technology
Western Institute of Technology, Iloilo City
3rd Year · 2024 – Present · Expected graduation: 2028

CERTIFICATIONS

- **National Certificate II — Computer Systems Servicing** · TESDA
